MINISTRY OF COMMERCE

RESOLUTIONS

New Delhi, the 28th January 1950

No. 55-MI(1)/48.—The Government of India have from time to time received numerous representations regarding the unsatisfactory conditions of travel in the unberthed passenger trades. The suggestions made have varied from the improvement of individual items of amenities to the total abolition of the unberthed passenger traffic. The question of safety standards in these trades came up for consideration before the last International Safety Conference held in London in 1948, and the Indian Delegation then made a statement that the Government of India proposed to undertake a comprehensive enquiry into the question of construction and life saving appliances for passenger ships engaged in the pilgrim and/or other unberthed passenger trades in certain waters. The question involves technical and other aspects and also requires a careful reassessment of the present position of demand and supply in the various trades concerned. It has accordingly been decided that a special committee should be appointed to investigate the question in all its aspects and to make recommendations on the subject. The Committee will consist of the following, namely:—

1. The Director General of Shipping, Bombay—
Chairman.
2. Mr. C. A. Buch, Bombay.
3. Mr. M. C. Vemachandru, M.C.A.,
Tuticorin.
4. Mr. Bidesh Kulkarni, Bombay.
5. Mr. B. Kodanda Rao, Bangalore.
6. Mr. Hemanta Kumar Basu,
Calcutta.
7. The Deputy Director General of Shipping,
Bombay—*Member-Secretary.*

The Committee may co-opt one or more Officers of the Mercantile Marine Department as Technical Members.

2. The terms of reference of the Committee are appended. The Government of India trust that all Shipping Companies, Chambers of Commerce and other unofficial bodies interested in the unberthed passenger traffic will afford the Committee all the assistance which it may require and that they will comply with any request for information and advice which it may address to them.

3. The headquarters of the Committee will be at Bombay, its postal address being

C/o The Directorate General of Shipping,

“Commerce House” Currimbhoy Road,
Ballard Estate, Fort, Bombay.

and the telegraphic address C/o. DEGESHIP, Bombay. It will visit such other places as are considered necessary.

4. The Committee will submit its report to the Government of India as soon as possible, but not later than the 30th June 1950.

ORDERED that a copy of the Resolution be communicated to all the Ministries of Government of India; Provincial Governments of West Bengal, Assam, United Provinces, Bihar, the Central Provinces and Berar, Madras, Bombay, Orissa and East Punjab; the Chief Commissioners of Delhi, Ajmer-Merwara, Coorg, Panth Piploda, Andamans and Nicobar Islands, Himachal Pradesh, Kutch, Bhopal, Rampur, Bilaspur, Manipur and Cooh Behar; States of Hyderabad, Mysore and Jammu and Kashmir; States Unions of Saurashtra, Madhya Bharat, Rajasthan, Patiala and East Punjab States, Vindhya Pradesh and Travancore and Cochin; Constituent Assembly (Legislative); Director General of Shipping, Principal Officers, Mercantile Marine Department, Bombay, Calcutta and Madras.

ORDERED also that the Resolution be published in the *Gazette of India* for general information.

APPENDIX

Terms of Reference

(1) To examine the prevailing conditions of travel in the various unberthed passenger services to and from Indian ports, and on the Indian coast.

(2) To make recommendations regarding the continuance of such services on all or any of the various routes, and whether in the event of discontinuance, berthed services should be substituted.

(3) To recommend measures which should be taken to prevent overcrowding on ships and to secure safer, better and generally improved conditions of travel in such unberthed services as should be continued, the effect of such measures on the level of fares being kept in view and indicated. In formulating its recommendations in the matter of improvements the Committee should take note of the Indian Merchant Shipping Act, 1923, relating to unberthed passenger ships the various rules made thereunder; the Simla Rules, 1931, and the revised International Convention for the Safety of Life at Sea, 1948. In addition to other recommendations which the Committee may make, it should make definite recommendations in respect of both existing and new ships as to:—

(i) Modification of the existing rules regarding allotment and measurement of space for passengers including alteration of the present scale of space allowance, the desirability of introducing dormitory accommodation and providing bunks or sleeping platforms, exclusion of irregular seating, prohibition of provision of board accommodation for families and the provision of baggage accommodation;

(ii) Improvements required in the existing standards of ventilation, heating accommodation and water supply;

(iii) Improvement of amenities including catering arrangements, cooking places and recreation facilities;

(iv) Improvement of the constructional and Safety standards prescribed at present in the Simla Rules, 1931 with a view to facilitate consideration of the amendment of those rules.

TARIFFS

New Delhi, the 4th February 1950

No. 11(2)-T.B./49.—The existing protective duty of 10 per cent. *ad valorem* on electric motors under item 72(14) of the Import Tariff is due to expire on the 31st March 1950. The Tariff Board has enquired into the case for the continuance of the protection to the indigenous industry and have submitted the following recommendations:—

- (1) Imposition for a period of three years beginning from the 1st April 1950 of a protective duty of 15 per cent. *ad valorem* on imports of electric motors up to 20 h.p. including fractional horse power, and including component parts thereof, specially designed for the manufacture of such motors, and having been given special shape or/and size for the purpose, such as stators and rotors;
- (2) Continuance of the present ban on imports of electric steel sheets and stampings; licences for such imports being granted only in exceptional cases, if the required quantity or/and design cannot be manufactured within the country;
- (3) Restriction of imports into the country of motors up to 15 h.p. until the present stocks of such motors have been exhausted;
- (4) Consequential amendment of item 72(14) of the first Schedule to the Indian Customs Tariff;
- (5) Compilation of statistics according to the following classification:
 - (i) Squirrel cage induction motors 1 to 20 brake-horse-power.
 - (ii) Squirrel cage induction motors 21 to 30 brake-horse-power.
 - (iii) Slip ring motors 15 to 50 brake-horse-power.
 - (iv) Fractional brake-horse-power motors; and
 - (v) all other electric motors not covered by the above;
- (6) Concerted action on the part of Tata Iron & Steel Co., Ltd., and Sankey's Electrical Stamping Ltd. to reduce the price of electrical sheets to a reasonable level;
- (7) Standardisation of the size and design of laminations in each type of electric motor to be made, and also of windings, shaftings and ball bearings in consultation with the Indian Standards Institution;
- (8) Reduction of the quantity of iron castings used to the minimum necessary for the efficient functioning of the motors;
- (9) Exploration of the possibility of obtaining castings and copper conductors in the cheapest market; and
- (10) Manufacture of transformers, switch gear pumping sets and similar articles, for which a portion of the same equipment and machinery as is required for electric motors can be utilised.

2. As regards recommendation (1), Government agree that protection should be continued up to the 31st March 1953. Government do not, however, consider that having regard to all factors at present relevant, including the comparatively limited field of the industry subjected to detailed investigation by the Board, the quantum of protection now enjoyed should be altered immediately. The position will be reviewed from time to time as and when necessary and certainly before the expiry of the period of protection. Recommendations (6) to (10) concern the industry whose attention is drawn to them. Recommendations (2) and (3) will be given due consideration by Government within the framework of their general import policy. Government accept recommendations (4) and (5).

ORDER

ORDERED that a copy of this Resolution be communicated to all concerned and it be published in the *Gazette of India*.

No. 17(9)-T.B./49.—In Resolution No. 218T/B(1)/48, dated the July 16, 1948, the Government of India, Ministry of Commerce, granted protection to the steel belt lacing industry, which is due to expire on March 31, 1950. The Tariff Board have conducted, a fresh enquiry into the conditions of the industry and have come to the conclusion that the present protection should not be revised after the date on which it is due to expire, because the indigenous article is considerably cheaper than the imported variety even without duty, and because the present ban on imports, necessitated by the balance of payments difficulties, automatically protects the indigenous industry against foreign competition. The Board have, however, made the following recommendations:—

- (1) that Government should take immediate steps for maintaining separate records of imports of steel belt lacing in the Sea Borne Trade Statistics and in the statistics of production maintained by the Department of Commercial Intelligence and Statistics and the Directorate of Industrial Statistics;
- (2) that the industry should maintain its cost data on scientific lines;
- (3) that Government should allocate 400 tons of steel per annum for distribution to the manufacturers of steel belt lacing;
- (4) that Government should extend all facilities to the Madan Engineering Tool Products, Delhi, to expand and improve the manufacture of cold-rolled steel, provided they are satisfied that the firm can produce a quality material and, should their output exceed the firm's requirements, distribute the surplus amongst other manufacturers of steel belt lacing;
- (5) that, should the supply of cold-rolled steel from the Madan Engineering Tool Products, Delhi, prove to be insufficient to meet the entire requirement of the industry steel of requisite quality should be imported to make up the deficiency;
- (6) that the manufacturers of steel belt lacing should be asked to submit quarterly accounts of their production and stocks to the Development Officer of the Directorate General of Industries & Supplies;
- (7) that, provided the quality is satisfactory, Government should meet their requirements of steel belt lacing from indigenous production;
- (8) that, in formulating import control policy, Government should take into account indigenous production; and
- (9) that the industry should be given an assurance that, if and when it is threatened with serious foreign competition Government would, on being approached by the industry, immediately institute a tariff inquiry, and grant such protection as its result may render necessary.

2. Government agree that protection should lapse on March 31, 1950. Government accept recommendations 1, 7, 8 and 9. As regards recommendation 3, this industry has, in fact, received preferential treatment in the matter of allocation of steel; but it has been found that the industry does not apply this steel exclusively to the manufacture of steel belt lacing, and diverts the allotted steel to the manufacture of articles like hinges and tower belts which have a quicker sale. Arrangements are being made to release as much steel as possible in proportion to the actual consumption of the firms, for the manufacture of steel belt lacing. Recommendations (4) and (5) are under examination and appropriate action will be taken. Recommendations (2) and (6) concern the industry whose attention is drawn to them.

ORDER

ORDERED that a copy of this Resolution be communicated to all concerned, and it be published in the *Gazette of India*.
